

Senior Architect/Project Manager:

James River Architects is looking for a talented senior architect with a minimum of ten (10) years experience and is seeking a career in a design-oriented firm with potential ownership opportunity.

James River Architects is a thirteen-year-old firm with an extensive resume of significant projects, i.e. The Mariner's Museum Monitor Center, Wolsley North America Headquarters campus (numerous projects), Orthopedic and Spine Center (Port Warwick, Newport News), Denbigh Community Center, CHKD, Hampton Roads Academy and The Achievable Dream Middle and High Schools. Project types include, but not limited to corporate offices, medical, private schools, churches, industrial and recreational/community centers. Our office offers a pleasant low-key environment while maintaining a professional workspace.

Candidate requirements include Bachelor's or Master's degree in architecture with

- Current professional license, NCARB
- LEED accreditation desired but not mandatory
- Skilled in project management, production documents and project construction administration procedures
- Ability to coordinate projects with consultants and administer quality control procedures
- Proficiency in Autodesk AutoCAD Architecture
- Proficiency in Autodesk Revit
- Specification writing utilizing CSI's MasterFormat, MasterSpec files and Altarix software
- Comprehensive knowledge of building construction practices and methods
- Working knowledge and understanding of International Building Code (IBC), Life Safety, etc
- Possess excellent oral and written communication skills
- Candidate must be highly motivated, proactive, ability to address new challenges and willingness to learn and adapt to new technology (hardware and software)

James River Architects offers a competitive salary commensurate with individual experience, paid time off, dental insurance, and 401K plan. We are seeking the brightest and best to continue the firm's growth and transition to the next level of design and increase our market presence.
